YORK BRANCH

Wildflower Society of WA

*Enabling our community to know,
grow and protect our local flora*

Our first attempt at an online sale in 2020 was such a resounding success that we have decided to do it again this year.

To assist you to make more informed choices about the plants you would like in your garden, we have included information about soil conditions and suggested uses for each species.

<i>Senna artemisioides subsp filifolia</i>	Silver Cassia	Year-round	yellow	1-3	all soils	ornamental
<i>Senna glutinosa subs. chatelainiana</i>		April-Sept	yellow	3m	all soils	ornamental

PLANT PRICES

\$3.00 each or 10 for \$25.

RETURNING POTS & LABEL TAGS

The tags we have used this year are quite substantial and therefore more expensive, so we'd like to re-use them where possible.

You are welcome to keep them for identification of your plants; otherwise, could you please deposit them and any unwanted tube pots in the green bin at the York Wildflower Nursery, at the top of the Bushland Garden.

Access is via Georgiana St, off Centennial Ave.

Thank you in advance for your support of our annual plant sale. The proceeds enable us look after your community bushland garden.
